Hankow Corkscrew Tree

(Salix Matsudana Tortuosa)

This fascinating horticultural curiosity comes from the Hupeh Province of East Central China. Our photograph shows the dainty filigree habit of growth when this unusual tree is allowed to grow unpruned. Branches, both large and small, grow upward with an exotic corkscrew twist. If you want a horticultural novelty to offer, in order to stimulate orders from new and old customers, we are sure that this charming hardy Oriental tree will do the job for you.

We will have a large quantity of these to deliver this fall in sturdy 4 to 5 ft small trees that will be ideal for mail order use.

We have consistently priced our 4 to 5 ft. stock at \$2.50 each, wholesale and this same stock has been selling readily, retail, at \$4.95 or \$5.00. Our price for fall, 1955, or spring, 1956, delivery is:

\$2.50 each, in units up to 100  
2.25 each, in quantities of 100 to 250  
2.00 each, in quantities of 250 or more

This tree is also known in common parlance as Corkscrew Tree, Corkscrew Willow, or Contorted Hankow Willow.
